

Curlers Wind Up

The Season

Annual Meeting and Prizes Awarded
Followed by Social, Hour on
Wednesday Evening.

The annual meeting of the Curling Club on Wednesday evening was attended by 25 members, presided over for the first part by W. Roughhead. The minutes of the previous annual meeting were read by W. L. Rippon, secretary, and passed. The financial statement showed a deficit for the season of approximately \$70, owing to their being fewer rinks in the past season. Mr. Rippon explained that in order to keep the membership fee at \$12, it is necessary to have at least fourteen rinks to meet expenditures. The decrease in the past season was due to the fact that the mines had experienced a very quiet season for some months prior to the curling season opening, but he looked for an improvement in membership next season.

The rule of third man acting as skip had reacted to the benefit of the club and had aroused keen interest.

Following the adoption of the financial report, election of officers resulted as follows: Wm. Lees, president; J. S. D'Appolonia, vice-president; W. L. Rippon, sec.-treas.; Wm. Antel, J. Bell, A. F. Short, J. H. Boulton, Wes. Johnson, executive. Suggestions or grievances were asked for by the incoming president, but from the tone of the meeting the members were quite satisfied with the manner in which club competitions and draws had been arranged. The president asked for co-operation and good fellowship among the members, and he felt confident that the grand old game would proceed as merrily as ever.

The prizes awarded were: McGill-

CANADIAN LEGION CELEBRATED VIMY ANNIVERSARY

Twelfth Anniversary of Famous Action of Canadian Corps Observed by Coleman War "Vets."

About fifty ex-service men met at the Canadian Legion club rooms on Monday evening to celebrate the anniversary of the capture of Vimy Ridge, the first engagement in the great war in which the four Canadian divisions combined advanced to the attack, under the then commander of the Canadian Corps, Sir Julian Byng.

Mayor Burns presided, and gave an interesting historical reading of the battle of Vimy, injecting a little humor into the reading of his address.

Among those who contributed to the program in song and story were R. Jones, J. Gardiner, Pete Smith, S. Raymond, Harry Duffin, Harry Parkinson, Rock Sudworth, Tom Jackson, Frank Jackson, G. Baxter, Comrades Parkinson and Duffin gave some fine duets with the xylophone and violin.

The old stand-by in the way of refreshments (crackers and cheese—and beer) helped to keep the inner man satisfied, and the program closed at midnight. As the well-known phrase goes, a good time was enjoyed by all.

Prizes Cup, first prizes donated by McGillivray Creek Coal & Coke Co. Ltd.: H. C. McBurney (skip), W. Lees, J. Yates, W. Morris (set of handsome pipes to each member). Second prize McGillivray donated by club, J. Bell, A. F. Short, S. D. Short, C. Profo. Merchants' Cup, prizes donated by club: T. Holstead (skip), W. Roughhead, J. Lonsbury, W. Smith. Morrison Cup, prizes donated by club: W. Bell (skip), J. Houghton, Dr. McLeod, J. Ramsay.

The skips in brief addresses expressed their thanks for the prize awards, and following the time-honored custom, refreshments were served and a social hour spent in harmony and good fellowship.

Fresh Water Tiger

35 pound muskie captured by G. Clark of Toronto after an hour's fight with a light rod and nine pound test line

Fishermen differ as to the fighting merits of the various species of the finny tribe to be found in North American waters. Some claim that, inch for inch and pound for pound, the small mouth black bass is the gamest fish that swims; others are equally enthusiastic in praise of the speckled brook trout; while still another fraternity claim that the salmon puts up as noble a battle for liberty as any game fish extant. All are agreed, however, that the muscunee, sometimes called the "fresh water tiger" is the greatest fighter known to anglers, and that he will put up a battle royal when attached to the business end of a rod.

One of the productive muscunee streams in North America is French River, in Ontario, Canada, which connects Lake Nipissing on the East with Georgian Bay on the West. This tangle of waterways is not only the haunt of the fighting muscunee but it

yields small and large mouth black bass, great northern pike of enormous size and pickerel in abundance, as well as pan fish. Not long ago a prominent New York business man landed a 55 pound "muskie" after a battle which will probably satisfy his quest for a thrill for the rest of his life.

French River is two hundred miles north of Toronto on the Sudbury Line. The French River Bungalow Camp, a series of cozy individual bungalows centering around a main club house, provides comfortable accommodations for the angler and his family. Jack Strathdee, manager of this anglers' retreat, is a genial host who is glad to give the uninitiated fisherman a few tips on how to lure the wily muskie. French River Bungalow Camp has as its adjunct Pine Rapids Camp, some 20 miles up the river, and located just at the spot where the "whoppers" are likely to lurk.

YOUNG ORATORS ENTER FINAL CONTEST

Gwen Gant, age 17, of Grande Prairie, and Walter MacDonald, age 18, of Red Deer, were selected as the winners for Northern Alberta and Southern Alberta respectively in the finals of the Alberta division of the Canadian and International Oratorical contest on Thursday night. These two winners will later contend for the privilege of representing Alberta in the Dominion finals to be held at Toronto, following which the Canadian champion will compete for International honors at Washington.

PROGRAM AT PALACE

A series of interesting and thrilling pictures are booked for the Palace. For this week-end "The Michigan Kid" starring Renee Adoree and Conrad Nagel will be shown; on Monday "The Strange Case of Captain Ramper" and during the week "The Great White North," "Brass Knuckles" and "The Escape" will be shown. Next week-end the delightful picture "Lilac Time" will be the feature, while elsewhere is a special announcement on the greatest human drama ever screened, "Uncle Tom's Cabin." Keep posted on the dates by watching The Journal.

Rink Financing Under Discussion

Mayor Burns Addresses Miners' Unions on Scheme to Finance Skating Rink.

On Sunday afternoon in the K. of P. hall executive officers and men of the local unions were addressed by W. Burns as a delegate from the skating rink company to place before them a suggestion of a monthly assessment whereby the operating of the skating rink and swimming pool would be provided for, and in return free privileges would be given.

As this was the first the majority had heard of the proposal, they were reluctant to take any definite action, though several spoke in support of the proposal. Mr. Burns emphasized the benefits that would accrue to all the children of the town, and his reason for bringing the proposal before them at this time was that the summer months are the most productive in the mines, and therefore if the suggestion met with the approval of the men, it would be much easier to carry it out than during the winter.

In view of the fact that no decision (Continued on Page 5)

Westminster Singers

Delight Audience

Many Expressions of Appreciation
Heard on Conclusion of
Splendid Program.

Unanimous expressions of delight at the close of the program in the opera house on Tuesday evening were made to the Westminster Glee Singers and those under whose auspices they appeared in Coleman, and as one visitor from Hillcrest expressed himself: "It was the finest evening he had spent."

The program included solos, part songs, sea shanties and folk songs, given in a style that held the large audience in rapt pleasure throughout two and a half hours. Particularly the silvery voices of the boy sopranos caught the popular fancy, whose precision and apparently effortless singing is a memory which will linger long in the mind. As one critic expressed it: "Their's is the nearest conception of heavenly voices I have heard."

The old favorite, "The Bells of St. Michael's Tower" was given early in the program, and this familiar number which has been heard by many on the Victor records was heard in reality in style and sound far surpassing the mechanical reproduction of this popular number. The imitation of bells by the human voices is indeed wonderful.

The sailor shanties were popular numbers, and were carried through with a swing which was exhilarating. The Welsh, the Irish and the Scotch were all remembered in the program, and particularly pleasing was Charles O'Connor's singing of "The Shamrock," with vocal accompaniment by the rest of the company.

Albert G. Greene in "Phil the Flute's Ball," with chorus by the company, was another number which brought forth a demand for more. In fact one cannot pick out any special number, every one was given so splendidly that it can safely be said that it was the finest program of singing ever heard in the Pass.

RADIO LICENSES

Radio licenses expired on March 31, states Corporal Weaver, R.C.M.P., Blairmore, and the maximum fine for operating a set without a license is \$50 and confiscation of the set. The license cost is \$1.00. Four prosecutions were recently made in Calgary for operating without a license.

FUNERAL OF TONY GUMBALA LAST THURSDAY

Following an illness of some months from heart trouble and other complications, Tony Gumbala, whose parents reside in West Coleman, died in Calgary general hospital on April 1, one week after an operation had been performed, and for which he was removed from Coleman to the city. He was only 21 years of age, and had worked for the McGillivray Co. and also at Coleman Garage part of last year.

He came to Coleman with his parents from Poland over ten years ago, and his death is very much regretted by a large circle of friends and acquaintances of the bereaved parents. Mr. and Mrs. Sam Gumbala. The funeral was held last Thursday afternoon, service being held in the afternoon, interment taking place in Coleman cemetery. The S.N.P.J. Lodge attended, and many friends followed in the funeral procession through town.

CARD OF THANKS

Mr. and Mrs. Sam Gumbala desire to thank their friends for their expressions of sympathy in their bereavement in the death of their son Tony, also those who loaned cars and those who sent flowers, as follows: Wreath from father and mother; Gates of Eternity from sisters and family; wreaths from Mr. and Mrs. Jakubiec, Fernie, B. C.; Mr. and Mrs. Adamski, Fernie; Mr. and Mrs. A. Kulig, S.N.P.J. Lodge; sprays from Mrs. Pietrosky and family, Mr. and Mrs. A. Hoyk, Mr. and Mrs. J. Krywolt; and from his boy friends Frank Tarabua, Joe Yurek, W. Chuhla, W. Kenda, D. Oleko and B. Orasck, the latter of Rosedale, Alta.

LEARNED ACTING

AS WAR REFUGEE

(During the Run)

Dancing in a travelling French circus, Renee Adoree was marooned in Belgium by the German occupation and was forced to become an actress in theatrical performances ordered for the amusement of the invading troops. After the war she remained on the stage for several years before going on the screen. Her most recent picture vehicle is Universal's special, "The Michigan Kid," which is at the Palace theatre Friday and Saturday. It is adapted from Rex Beach novel and Conrad Nagel appears in the co-starring role. Irvin Willat directed it.

The Greatest March

in all
McLaughlin
Buick
History

THE motor-car buyer... the final judge of automobile values... has registered enthusiastic endorsement of the revolutionary advances made by the 1929 McLaughlin-Buick!

During the past month, McLaughlin-Buick sales have been 25% greater than March of last year... greater than any previous March in all McLaughlin-Buick history.

More people buy McLaughlin-Buick than any other car at or above its price... because the 1929 McLaughlin-Buick with its Masterpiece Bodies by Fisher, has unquestionably established a new standard of performance and a new order of beauty.

Get behind the wheel and get the facts!

The West's Ocean Port

Announcement that the rails of the Hudson Bay Railway had reached Churchill on Good Friday, is the most welcome news the people of Western Canada have received for some time, heralding, as it did, the realization of a long-entertained hope. For many years Western Canada, agitated for the building of a railway to the Bay. It was vigorous, even violently, opposed by Eastern Canada interests, and, politically speaking, the voice of the West was weak in comparison to that of the East. The West, however, kept up its campaign of education as to the merits and feasibility of the route, and ultimately all political parties in Canada became committed to the project.

Finally, plans for a Hudson Bay Railway assumed definite shape in 1910, when a branch line of the Canadian Northern was completed from Hudson Bay Junction, Sask., to The Pas, Manitoba, and the building of a Government line from The Pas to Hudson Bay was authorized by Parliament. Work commenced the following year with Churchill as the objective. Following a change of Administration at Ottawa, Churchill was abandoned as the proposed terminal, and Port Nelson chosen. The location of the railroad was accordingly altered. The right-of-way was cleared and graded to Port Nelson and steel laid, before the end of 1916, as far as Kettle Rapids, 332 miles from The Pas.

Owing to the war and consequent lack of men and steel, operations were suspended and for some years only part of the completed railway was kept in repair.

The work thus commenced by the Liberals in 1910 was continued by the Conservatives until 'war, and the after-war period of financial depression stopped the work. The project, however, had only been carried on in a more or less half-hearted manner with the result that progress was slow, and the country, as a whole, lacked confidence in the undertaking, the East regarding it as a waste of public money and in the nature of a political sop to the West.

With the acceptance by Hon. C. A. Dunning of the portfolio of railways in the Mackenzie King Government, a marked change took place. It is an open secret that Mr. Dunning made the immediate and vigorous construction of the road a condition of his entry into the Government. He frankly told the people of the West that he regarded it as "his job" to complete the railway in the shortest possible space of time.

The task of reconditioning the roadbed which had fallen into disrepair was begun, and, in view of divergent views which prevailed as to the relative merits of Churchill and Nelson as terminal harbors, Mr. Dunning secured the services of the British harbor engineer to decide the question. He reported strongly in favor of Churchill, and his report was immediately accepted, and the road again diverted in that direction.

Since then there has been no let-up in construction. It has been pushed forward day and night, in season and out of season, with the gratifying result announced on Good Friday.

In the meantime Mr. Dunning grappled with the problem of building an effective harbor at Churchill and establishing the feasibility of the ocean route through Hudson Strait. Airplane and other surveys, radio, and every modern invention was called into use, and in two years public opinion in the West was not only justified, but the East was largely converted, especially as huge and very valuable mineral discoveries in the northland made accessible by the railway quickly followed.

Although both steel and telegraph have reached Churchill it will require some months yet to fully ballast the road to make it capable of efficiently handling trains. There is an enormous amount of work to be done to build necessary harbor facilities at Churchill. That work is in progress and being prosecuted with the same vigor as characterized the building of the railway in the last three years. Hundreds of carloads of supplies, material and equipment for the harbor are even now distributed along the railway to be rushed in at once now that the rails have been laid.

It is confidently anticipated that before the end of 1929 freight will be moving steadily from the prairies to the West's own ocean port at Churchill, and Mr. Dunning has already announced that the Crow's Nest Pass schedule of rates on grain will apply to the Hudson Bay route.

The new route will, it is believed, effect a veritable revolution in Western transportation. In preparation for it both of our great railway systems have been building north and south lines within recent years, whereas formerly their policy was to so construct lines as to move everything from east to west and west to east.

With the completion of the Hudson Bay Railway one of Canada's ambitions is being realized. It is in these Western Provinces that depth is to be given to the Dominion, something it has lacked since Confederation brought a Dominion into existence consisting of a long narrow strip extending from the Atlantic to the Pacific just north of the International boundary line.

Big Amount For Research

Ontario Government Increasing the Contribution For This Purpose

In conformity with the Ontario Government's offer "dollar for dollar" plan of assistance for industrial research in the province of Ontario, a bill has been introduced in the Legislature increasing the contribution of the provincial government to the Ontario Industrial Research Foundation from \$1,000,000, as provided in the 1928 act, to \$2,500,000.

Last year legislation was provided for the subscribing by the Ontario government of \$1,000,000 if the same amount were subscribed by private interests. So enthusiastic was the response that that amount has

been over-subscribed and this amendment provides for its increase to \$2,500,000, to be granted on the same terms.

For years Mother Graves' Worm Extirminator has ranked as a reliable worm preparation and it always maintains its reputation.

Gold Fish Not So Delicate

Only temporary suspension of the activities of a bowl of gold fish resulted when the temperature dropped to 14 degrees above zero and the fish were encased in a solid cake of ice. They resumed their activity when the ice thawed. The temperature was the lowest in Marshfield at any time in the last twenty-five years.

Average Farm Wages

According to a statement issued by the Department of Trade and Commerce of the Dominion Government, the average farm wages paid in Alberta were \$72 per month, which is the second highest average in Western Canada, British Columbia being rated at \$77 per month.

In England nearly 5,000,000 items of correspondence for places abroad are posted annually with insufficient postage and over \$200,000 a year is collected in surcharges from the addressees.

Armament Reduction

Great Britain Is Leading the World In This Connection

Right Hon. W. C. Bridgeman's speech of the other day, to which we have already referred, was noteworthy, among other things, for how it indicates how the obst of British naval maintenance is being lessened. Before the War, the First Lord of the Admiralty pointed out, Britain had 114 cruisers. Today she has only 52. Before the War the naval estimates amounted to 24.5 per cent. of the entire national budget. Today they are only 9.5 per cent.

Facts and figures like these speak for themselves. They cannot be given any meaning other than that which they obviously bear. Anglophobes in the United States will probably find them a bitter pill to swallow. But fact is a bitter pill which will see in them one of the real guarantees of world peace. A nation that is building for war with an eye on imminent hostilities, would not do as Britain has done. Britain leads the world today in the move for naval disarmament, as she has always done.—Regina Leader.

A TIRED FEELING IN SPRINGTIME

Not Sick, But Not Up To The Mark—You Need the Help Of That Sterling Tonic, Dr. Williams' Pink Pills—They Give New Vitality.

With the passing of winter many people feel weak, depressed and easily tired. The body lacks the vital force and energy pure blood alone can give. In a word, winter has not exactly kept the indoor life of winter has left its mark upon them. A blood-building, nerve-strengthening tonic is needed to give renewed health and energy. Dr. Williams' Pink Pills are an all-round blood builder and nerve tonic but are especially useful in the spring. Every dose helps to make new, rich, red blood and with this new blood returning strength, cheerfulness and good health quickly follow.

If you are pale, easily tired, or breathless at the least exertion, if your complexion is poor or you are troubled with pimples or eruptions, Dr. Williams' Pink Pills are just what you need to put you right. If you have twinges of rheumatism, are subject to headaches and backaches, if you are irritable and nervous, if your sleep is restless, if you are out of your appetite, or if you are tired, the treatment Dr. Williams' Pink Pills alone can give you the new blood, new strength and new energy this medicine always brings. Mr. A. Marquette, North, Mass., writes: "I have found great benefit from the use of Dr. Williams' Pink Pills. Before I began using them I was in a badly run-down condition, and at times felt scarcely able to work. Dr. Williams' Pink Pills have changed all this and since taking them I am enjoying the best of health. Every man who feels run-down and easily tired should give this great medicine a fair trial."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuritis, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition and cultivate resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50c a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Hungarian Beggars Taxed

Beggars must pay taxes on their incomes, the Hungarian Government has ruled, following an investigation which proved that beggars often made more money than working men. An organization of mendicants has been ordered disbanded.

Use Minard's Liniment for the Flu.

Live Stock Held By Indians

Holdings of farm live stock by Indians in reserves in Canada during 1928 were as follows: horses, 36,172; milch cows, 9,194; other cattle, 34,495; sheep, 3,204; swine, 9,704; hens and chickens, 108,918; turkeys, 7,715; geese, 5,196; ducks, 7,788.

MOTHER OF TWIN'S HELPED

Restored to Health by Taking Lydia E. Pinkham's Vegetable Compound

Mitchell, Ont.—"I had little twin babies and for quite a while after I was born I was weak and could not do my work because of pains all the way up my legs at the knee. I also had headaches and got very little sleep. I took Lydia E. Pinkham's Vegetable Compound, and soon was able to get up and do my work. I have taken three bottles and I am fine, do my work without trouble and am gaining in weight and strength. I will gladly recommend the Vegetable Compound to anyone."—Miss F. STATION, Box 250, Mitchell, Ont.

For Trans-Siberian Railway

Heavy Shipment Of Railway Material To Leave Vancouver For Russia

Thirty thousand tons of railway material—trucks and steel framing for box cars—will shortly leave Vancouver for the Orient, as equipment for the Trans-Siberian Railway. The order for this material was placed thirteen years ago, but delivery was halted with the outbreak of the Russian Revolution, and the equipment held in the Canadian Pacific Railway's yards, at Coquitlam, until conditions for delivery were favorable.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callos on the feet or toes—that's the time to put on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes, Putnam's will remove it without pain. Just use PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

Pensions Act Modified

Amendments Will Make It Easier For Alberta Cities

Amendments to the Old Age Pensions Act passed before the legislature prorogued, will bring some relief to the cities in connection with the fear that a great number of the old age pensioners will drift from the rural municipalities into the cities.

An amendment to section four provides that any person having been granted a pension whilst resident in a municipality or an improvement district, shall be deemed to continue to be a resident of that district so long as he continues to reside in the province. This was in line with the suggestion of G. H. Webster, Liberal, Calgary.

In connection with the maintenance clause, an amendment was passed providing that no person will be called upon to supply maintenance if his or her earnings are such that they do not come within the scope of the Income Tax Act.

Recipes For This Week

(By Betty Barclay)

TWENTY-FIVE CENT PUDDING

3 quart water.
1 teaspoon salt.
1 cup pearl tapioca.
1 teaspoon vanilla.
4 tablespoons butter.
1½ cups brown sugar.

Cook tapioca in water until transparent. Add other ingredients. Bake one-half hour.

AMBROSIA SOUTHERN STYLE

½ lb. shredded coconut.
4 to 6 oranges.
1 to 2 cups pineapple (optional).
2 bananas (optional).

Cut sections of oranges into about three pieces, add diced banana and diced or shredded pineapple. Sweeten to taste. Add coconut and serve cold. Delightful variations can be made with any seasonable fruit as peaches, pears, cherries and strawberries.

The Four Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

The Up-Keep Of Roads

Well-constructed highways are necessary in Canada to meet the insistent demands of traffic, but the maintained roads are even of more importance in the interest of economy. Consequently, provincial road administrative organs and engineers are devoting a great deal of thought and attention to the care and protection of roads. In 1927, the mileage of roads under maintenance in Canada under the patrol of gang system was 44,416 miles, at a cost of \$16,024,617.

A house built of cellular glass, held together by thin iron plates, has been constructed in Japan by a native scientist. There are no windows; ventilation is provided by valves on the second floor.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

Alberta's farm workers received higher wages in 1928 than those of any other province in Canada with the exception of British Columbia.

Minard's Liniment for Coughs and Colds.

Unequalled for Healing Pain-Buk for SORES WOUNDS & INJURIES

Canada's Mineral Industry

Third In Importance Among the Primary Industries Of the Dominion

Addressing the 30th annual meeting of the Canadian Institute of Mining and Metallurgy in Winnipeg, S. J. Cook, chief of the mining, metallurgical and chemical branch of the Dominion Bureau of Statistics, said that, "Canada's mineral industry, third in importance among the primary industries of the Dominion, brings to the nation a prestige far beyond the monetary measure of the output. First in nickel, first in asbestos, third in gold, third in silver, fourth in lead and copper, and sixth in zinc, among the world's producers, Canada enjoys an enviable position in the mining world with every prospect favorable to continued expansion."

The Oil For the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the home.

Motorist (after knocking over a butcher's boy): "Are you hurt, my lad?"

Butcher's Boy (picking up contents of his basket): "Dunno, here's me liver and ribs, but where's me kidneys?"

Test Alberta Coal

Samples Are Taken To England For Laboratory Test

Tests of Alberta coal with a view to the securing of a substitute for anthracite will be made at the Woodall Duckham laboratories in England, so Sir Arthur Duckham announced on route east. He obtained samples for this purpose. He is on his way home from Australia, which he visited on an Empire trade mission.

A Foe To Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half way measure about this remedy. It goes right to work and drives asthma out. It reaches the innermost breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Manitoba Taking Her Place

Manitoba is now experiencing a period of intensive mining development. Copper, gold, silver, lead, zinc and other metallic products have been mined, and exceptional opportunities exist for the prospector and mining company.

Minard's Liniment prevents Flu.

Ten thousand bushels of Garnet wheat are to be shipped to Britain and other wheat importing countries to be tried out by the millers there.

YOU CAN'T DYE with Good Intentions

You can get results after a fashion—with any old dye; but to do work you are proud of takes real dyes. That's why we put them in Diamond Dyes. They contain from three to five times more real dye than you buy. Cost more to make? Sure. But you get them for the same price as other dyes. Next time you want to dye, try them. See how easy it is to use them. Then compare the results. Note the absence of that re-dyed look; of streaking or spotting. See that they take none of the life out of the cloth. Observe how the colors keep their brilliance through wear and washing. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or fix silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

Diamond Dyes

Easy to use Perfect results AT ALL DRUG STORES

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting as surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

WHEAT POOL HISTORY GIVEN TO U. S. SENATORS

Washington.—Not only has the Canada Wheat Pool been of distinct advantage to the wheat farmers of Canada and tended to increase the prices they have obtained for their product, but it has had an influence on the whole wheat market, according to A. J. McPhail, president of the Central Selling Agency for the great three Western Canadian pools, who discussed the subject before the Senate committee on agriculture here.

Mr. McPhail came before the Senate committee by special request of the chairman, Senator McNary. Not only was he warmly thanked by Senator McNary and others of the committee for consenting to be present, but senators expressed the view that the information which he set forth as to the workings of the Canada Wheat Pool would be of great use in evolving plans in this country for farm relief.

Not the least interesting phase of the hearing was the suggestion that this country and Canada by co-operating with respect to the marketing of exportable wheat could control the world market to a still greater degree than it has already been influenced by the Canadian Pool.

Senator Brookhart of Iowa, asked a series of questions of Mr. McPhail on this point. While Mr. McPhail made no commitment on the policy of such co-operation, he indicated that the Canadian Pool, working with some similar organization in this country, could have an increased influence on the world market.

Mr. McPhail gave a sketch of the history of the formation of the pools of Manitoba, Saskatchewan and Alberta, and their unities in the formation of a central selling agency. Mr. McPhail declared that while the farmers of Western Canada in 1923 and earlier were anxious to have the government continue the wheat board plan, it is now the general feeling of the farmers that the pool has been of the utmost benefit in the creation of a spirit of independence and self-reliance among them as well as increased knowledge of their own business. He declared the success of the pool had been a great incentive to the general co-operative movement in Canada.

"The farmer," he said, "is taking more interest in his own organization. There is a keen individual sense of responsibility for the success of the organization."

He said the pool marketed 52 to 54 per cent. of the wheat of the three provinces and carried on a continual campaign of education among the farmers in order to increase the membership.

Members of the committee were interested to know that the Pool is financed wholly by the banks and not by the government, and that borrowings sometimes reach \$65,000,000.

British Liberals Start Drive

Four Thousand Speakers Have Started on Election Tour

London England.—The great Liberal drive for victory in the general election has started and 4,000 speakers preaching R. H. Ho, David Lloyd George's new unemployment removal scheme, will visit every nook and cranny in the country until everybody knows it by heart.

As far as is humanly possible every district will have at least one visit from one of the big guns who are planning to start at various points in England and Wales, and to make lightning tours of the kingdom, converging on Scotland before the dissolving of Parliament.

Rt. Hon. David Lloyd George, the party leader, will open his tour in Wales.

Fellowship For Alberta

Cambridge, Mass.—Vernon Elgin Way, of Edmonton, Alberta, has been awarded the Charles Elliot Norton fellowship in Greek studies for 1929-30. It was announced at Harvard University. Way is a student at the Harvard graduate school of arts and sciences. The fellowship is for a year's study at the United States school of classical studies at Athens.

Missing For Three Months

Boston.—The Boston Herald says that 17-year-old Rosemond Morse, daughter of Edward W. Morse, Jr., wealthy Brookline resident, has been strangely missing from home since the night of January 4. A nationwide search by private detectives and police has been unsuccessful.

W. N. U. 1730

Two Killed in Plane Accident

Pilot and Passenger Lose Lives in Crash At Rhedive, Sask.

Rhedive, Sask.—To the sudden panic of a passenger, unmoved by the swooping ascent and gyrations of the aeroplane in which he had sought the thrill of a first flight, it was attributed the tragic crash here that cost the lives of Flying Instructor Roland Ford, of Regina, and John Sydoruk, a C.P.R. section foreman.

Trapped in the enclosed cockpit of dual-control Velle Monoplane when the right wing of the plane, in which the two were flying, fouled a telephone wire, they were plunged downward with terrific force, and death either came instantly from concussion, or else they perished in the flames that immediately enveloped the crumpled machine.

The coroner's jury which investigated the tragedy came to the merciful conclusion that the victims were either dead or stunned and were thus oblivious to suffering. On the other hand, a Regina pilot who viewed the scene and examined the wreckage of the plane in the light of all the circumstances, expresses the opinion that the crash was not sufficient of itself to cause the deaths of Ford and his passenger. He believes the two fought vainly to escape from the blazing cabin before succumbing to the flames.

Scholarships For Research Workers

Students Of Outstanding Merit Have Been Selected For Awards

Ottawa.—Sixty of the applicants for post-graduate scholarships from the national research council of Canada have been granted either fellowships, studentships or bursaries for 1929 according to announcement of the council. Out of the hundreds of applications before the council those of outstanding merit have been selected for the awards.

The list contains names throughout the breadth of the Dominion and allows for the expenditure of approximately \$50,000 for research which will be followed at various Canadian universities.

The purpose of the annual endowment of individuals with money grants by the national research council is to assist in building up in Canada a corps of thoroughly trained research workers capable of undertaking and directing scientific research on Canadian industrial problems or in connection with the development of Canada's natural resources.

The scholarships go to university graduates who are following some line of scientific investigation at university laboratories.

Making Tour Of Canada

League Of Nations Officers To Help In Membership Drive

Ottawa, Ont.—One of the highest officers of the League of Nations is a visitor in Canada. M. Joseph Avenol, Deputy Secretary General of the League, arrived in Vancouver from the Orient and will tour Canada from the Pacific to the Atlantic, speaking on behalf of world peace and the work accomplished by the League.

M. Avenol has been in China conferring with members of the Nationalist Government which has been formally recognized by the League as the de facto administration in that country. It is now a long time since Soviet Russia exercised any influence in the councils of Nationalist China, and M. Avenol expects to report to Geneva a great strengthening of Chinese co-operation with the League as a result of his visit.

The Deputy Secretary-General will be a speaker on behalf of the big coast-to-coast drive for new membership to be launched April 16 by the League of Nations society in Canada. The present membership of the League is 21,000 and it is expected this will be well over 50,000 on the completion of the membership campaign.

Valued At Four Billion

New York, N.Y.—Diamonds owned in the United States are valued at \$4,000,000,000, the Continental Insurance Company has found. The per capita value of the country's holdings is greater than that of any other country. Few of the world's large diamonds are owned in this country.

Will Operate New Hotel

Toronto.—The Canadian Pacific Railway has agreed to operate the hotel to be erected in Guelph by Arthur W. Cullen, Chicago grain dealer, according to E. W. Beatty, president of the railway, who is visiting Toronto.

CANADIANS IN U.S. ARE SUBJECT TO DEPORTATION

Washington.—Thousands of Canadians are certain to be affected by the "absolute deportation" law, which passed near the close of congress. Walter W. Husband, assistant secretary of Labor, one time commissioner-general of immigration, said the illegal residents are divided into three groups.

In the second group are those who entered this country without payment of the head tax of \$8 between 1917 when the tax was first imposed and June, 1921, when the first immigration exclusion act went into effect. This group is the least seriously affected. They cannot be deported as the statute of limitations has outlasted their offenses. Steps are being taken in congress to validate their residence.

In the second group are those who entered without paying a head tax between June 3, 1921, and July 1, 1924, when the policy of strict exclusion went into effect. Members of this group also are in no danger of deportation, as the statute of limitations has operated to protect them from prosecution. But unless they take steps at once to validate their residence, they can never safely leave the country, even for a short visit to relatives in Canada. If they cross the international border they can never get back except by complying in all particulars with the present immigration laws.

Men and women who have slipped into the country since July 1, 1921, comprise the third group and are affected by "absolute deportation" law. They are not protected by any statute of limitations, as the 1924 law specially provided that the statute would not apply. The government reserved the right in that law to proceed against illegal residents at any time, even 20 years hence.

Many in this group have obtained employment, have built homes, and to all intents and purposes are permanent residents, but if they are known to the immigration authorities they are in grave danger. If they are arrested, found to have evaded immigration laws, and sentenced to deportation, they can never hope to return to the United States.

Libel Action Costs Heavy

Toronto.—Taxation of the bill of costs, submitted by W. N. Tilley, K.C., counsel for Sir Arthur Currie, commander of the Canadian Corps in France during the great war, in his libel action has been made. The net costs allowed totalled \$5,377. The amount charged before taxation was \$11,087. In addition to this, defendants will have to pay judgment of \$500.

Prince Reports For Duty

London England.—Prince George, youngest son of the King, reported for duty at the foreign office April 8, and spent the morning in meeting his future colleagues. The prince, who has abandoned his career in the royal navy, is attached to the western department at the foreign office. The prince returned to Buckingham Palace for luncheon.

REGIONS IMPORTANT POST

Lord Lovat, who has now almost given up public life, has resigned from the chairmanship of the overseas settlement committee owing to ill-health. He resigned as parliamentary under-secretary for Dominion affairs last December.

Express Confidence In Bracken Government

Labor Resolution Defeated 31 to 19 In Manitoba House

Winnipeg.—By a vote of 31 to 19, confidence in the Bracken Government was expressed by the Manitoba legislature, when a Labor resolution demanding an investigation of the Seven Sisters Falls power agreement by a committee of the House was defeated.

The issue had been regarded by the premier as one of want of confidence. John Queen, Labor leader, was the sponsor of the resolution.

In the division the government had the support of the Liberal members, including H. A. Robson, Liberal leader. Conservative, Independent and Labor members supported the Queen resolution.

When the session opened Premier Bracken and the leaders of the various groups paid tribute to the late Sir Hugh John Macdonald. By a standing vote, a resolution of sympathy was unanimously adopted.

Will Open Immigration Department In Regina

Permanent Headquarters To Be Established On May 1

Regina.—Permanent headquarters of the Department of Immigration for Southern Saskatchewan will be established here May 1, according to an announcement made by Geo. Todd, of the Immigration Department, who will be in charge of the new office.

Mr. Todd explained that there had been a growing need during the past year for an office in Regina, and that temporary accommodations had been secured in the Veterans Block during the last month. The new Regina office of the department will be situated in the Darke Block, and will be in a similar position to those already established at Saskatoon, Calgary and Edmonton.

Serious Epidemic Of Meningitis In China

Steamship Officials Take Steps To Prevent Spread Of Disease To Other Countries

Shanghai, China.—The meningitis epidemic having reached serious proportions here officials of steamship lines have decided not to accept stowage passengers from Shanghai bound for Canada and the United States. The action was taken in an attempt to prevent the possible spread of disease to these countries.

Owing to lack of statistics accurate information of the number of cases was lacking but it was known to be large. In the Shanghai area authorities estimated, there were one thousand cases being treated. Many deaths have occurred within a radius of one hundred miles of Shanghai.

Michigan Law Repealed

Famous Life - For - a - Pint Law Is Revoked

Lansing, Mich.—Michigan has revoked its famous "life-for-a-pint" law. Governor Fred W. Green signed the Watson House bill eliminating 120 "minor" felonies from the list of crimes which draw the life penalty for four felonies.

Governor Green said he would commute the life sentences of Mrs. Ella Mae Miller, Channie Tripp, Tony Papich and others who are serving life sentences for liquor felonies.

SUBSIDY SYSTEM FOR PROVINCES IS CONDEMNED

Ottawa.—Manitoba would not have been "one cent better off today" had she not had her natural resources as from the time she was made a province, declared A. R. McMaster, K.C., senior counsel for the Dominion, appearing before the Manitoba natural resources commission and concluding his argument against the claims of the province for compensation from the Federal Government for alienated lands.

"Her natural resources," he said, referring to those which remained unalienated, "are now being returned to the alienator more than offset in value by the Dominion's expenditure in their administration since 1871. What Canada has done for Manitoba has more than compensated for any possible loss."

While admitting that to follow the wish-in-council of the Federal cabinet, Manitoba must be placed in a position of equality with other provinces and must not be discriminated against, Mr. McMaster urged that the Dominion must not be placed in a worse position than she would have been in had Manitoba kept her natural resources from the first and administered them herself.

The subsidy system, he declared, was vicious. He urged that the commission be charged in increasing such payments. It was a bad principle for one government to collect taxes and another to use them for revenue. The practice should be kept in as narrow confines as possible, curtailed as far as was practicable, in justice to all.

"Manitoba is not a poor sister," he continued. "If she is treated with lavishness there will be demands for similar treatment from east and west. One claim will lead to another. It may become—and I see a real danger here—an endless ring of demands upon the Federal Government."

One of two things would be the result of such a situation. Either Dominion service would have to be curtailed or else taxation would have to be increased. The one avenue open to the Government of Canada to increase revenue was through its customs duty, he believed. And this would touch the pocket of the consumer.

Mr. Justice Turgeon, chairman of the commission, asked Mr. McMaster what he would suggest in place of subsidies which he was condemning. Mr. McMaster replied that he would rather see a lump sum paid to Manitoba, if compensation was necessary, than have an increase in allowances. But that was his own opinion, he added. He had no instructions to offer any such suggestion.

Mr. Justice Turgeon pointed out that the subsidy system was provided for in the Confederation pact and was meant to take the place of surrendered avenues of revenue through customs duty.

CANADA TAKES ACTION ON THE 'I'M ALONE' CASE

Ottawa.—The sinking of the Canadian schooner "The Alone," by United States coast guard vessels has been the subject of formal representations by the government of Canada to the United States.

This was stated in the House of Commons by Right Hon. W. L. Mackenzie King, prime minister, answering a question by Hon. R. B. Bennett, Opposition leader.

Mr. King stated that the "The Alone" case had been the subject of correspondence between Ottawa and Washington for the past week. He also said that the correspondence in this case would be brought down in due course.

Washington.—Word from Ottawa that the Canadian Government had decided to waive the sinking of the Canadian run-ship "The Alone" subject of formal representation to the American Government was interpreted by official and diplomatic circles here as a move on the part of the Canadians to bring the anti-rum-running treaty up for formal discussion.

There has been an inclination during the past few days in some quarters in Washington to believe that the Canadians might drop the case, hence no move in the way of an apology or steps to straighten out the tangle were made by the American authorities.

It is generally believed the Canadians are more interested in the principles of the case with regard to the treaty than they are with the actual sinking.

Pacific Yields Clue To Aviation Tragedy

Paris Of Airplane Found May Solve Ocean Mystery

San Francisco, Cal.—Parts of an aeroplane, twisted into weird shapes and water soaked, were brought here to determine whether they might aid in the solution of a tragic ocean mystery, either during the Dole flight to Honolulu or army and navy manoeuvres off the coast of Canada.

Most of the evidence indicated they were parts of a United States government craft which disappeared in 1922 or 1923 during a flight off the Pacific coast, at the Mills Field, the municipal airport, said after a brief examination.

There were also several indications that the hardly distinguishable struts, rudder and frame might be parts of the plane in which Captain William P. Erwin, American war ace, and Alvin E. Schwadt were carried to their death while 500 miles from here on their way to Honolulu in 1927.

New Counts Added In Auto Offences

B.C. Juries Have Alternative In Manslaughter Indictments

Vancouver.—The alternative counts of causing grievous bodily harm and of furious driving so as to cause bodily harm have been added by the attorney-general of British Columbia to manslaughter indictments in auto cases. This was explained at the present sittings by Mr. Justice F. B. Gregory in presenting manslaughter indictments to the grand jury. The addition follows a recent decision of the supreme court of Canada.

"It has been found that juries are loath to find an accused guilty of manslaughter because they think it savors of moral turpitude," Mr. Justice Gregory said. "Juries can now act on the lesser counts."

Uruguayan Flies Safe

Bogota, Colombia.—Two weary aviators for whom all hope had been abandoned have turned up at Tumaco, southernmost port of Colombia, after a two days' voyage in a small boat along the coasts of Ecuador and Colombia. The Uruguayan fliers declared they had been forced down in Northern Ecuador and their plane destroyed.

Aviation Course By Mail

Boston.—Learning to fly, by mail, is now possible under a plan being carried out by the Massachusetts State Department of Education. Since the department's recent announcement that it would offer a correspondence course in aeronautics, more than 400 inquiries have been received from 23 states of the union, Canada and Haiti.

Laurentian Spring

The photograph reproduced above is a purely amateur study, but it is a fine illustration of how the great Laurentian district north of Montreal lends itself to pictorial art. It is used by the Tourist Department of the Canadian Pacific Railway to lure the fisherman from his home as, although it does not demonstrate the piscatorial possibilities, it does show something of the great natural beauty which every true angler appreciates equally with opportunity to demonstrate his art.

He chose it for its big car prestige

ASTONISHING how many people who formerly paid high prices for the privilege of big car ownership are now turning to Pontiac. But it's not at all surprising when you consider Pontiac as the Big Six it is . . . instead of the low-price class in which its cost places it. It's a car you can refer to with a sense of pride . . . a car that will more than justify your confidence in its prowess. Just see it and drive it if you'd learn why experienced and exacting motorists choose Pontiac for the Big Six prestige it provides. 76-4-25C

NOTES AND COMMENTS

An attempt is to be made next week to interest all of the Boards of Trade from Fernie eastward to Macleod in a proposal to circulate publicity literature on the scenic and other attractions of the "Crow" route through the Rockies. Fernie Board of Trade has taken the initiative and a conference of representatives will be held at Pincher Creek on Wednesday. There is scope for some effective work to be carried on and the only limit is lack of funds. Publicity work requires the expenditure of a considerable amount of money, and if it is intelligently made use of, it will pay handsome dividends. But a lot of money can be wasted on a piecemeal policy which would not reach the people most desired. The northern route through Calgary and Banff has strong advocates in the Calgary Board of Trade, and they have spent a lot of money in propaganda by having a man visit many of the large centres in Saskatchewan and Manitoba, and in having publicity matter appear in the weekly newspapers of those provinces.

This route has just as fine scenic attractions as the northern route. Banff with its magnificent C. P. R. hotel receives a great deal of publicity—the railway company sets to that—but in the south it is entirely through boards of trade that publicity expenditures must be met. The point to consider is to what extent would Coleman be justified in contributing towards an expenditure for this purpose. As far as tourist traffic is concerned, there is nothing to entice them to stay over at this particular spot, though Crows Nest Lake and its surroundings affords an opportunity for somebody to invest capital in developing a resort which would be a haven of rest for the tourist making the journey through the mountains. Frankly speaking, self-interest is uppermost in making expenditures to attract tourist traffic, and unless the revenue to be derived is greater than the expenditure proposed, it would not be good business for any board or organization to spend money without getting a reasonable return. But all business men living in towns on the Crow route should be interested in the initiative effort of Fernie board and make it their business to co-operate in the proposal as far as good business sense would dictate.

The complimentary remarks of those who heard the fine concert of the Westminster Glee Singers this week is very encouraging to those who were responsible for booking them here. The good support given in attendance shows plainly that the public are eager to hear something out of the ordinary in the way of musical entertainment, and they were well rewarded in the pleasure derived. In booking attractions of this nature there is a financial risk involved which guarantors must be responsible for, but the liberal support accorded on this occasion indicates that entertainment of a high-class nature will receive the support and encouragement that it deserves.

Complaints are often heard of the rowdy nature of boys from the age of 14 years upwards. Experience everywhere, in cities or small towns, is the same, and it is the dangerous age for boys. Influences at that age will largely determine if the boy is to continue on the straight and narrow path or drift into evil tendencies. Coleman has its share of annoyance in this respect, but what's the use of complaining and meting out punishment unless steps are taken to effect a remedy? There is absolutely no organization of any kind to provide useful and healthy recreation for lads, except it be the semblance of a Tuxis organization of which very little is heard. There was a Boy Scout troop two years ago, fostered by the Anglican and Roman Catholic priests, but this has ceased to exist. Religious organizations do not fill the bill. Boys require leaders, for they are the same the world over, and these leaders must be older boys or men whom they will respect and be loyal to. The gang spirit is in the make-up of every normal boy, and the best remedy for eliminating annoyances is to have gang leaders of the type who will direct their energies in the right channels. Leadership of this nature requires the unselfish service of somebody interested in the boys, and is the only antidote for rowdiness and bad manners. Will somebody volunteer?

The Story of a Charming Home

When we realized that we had nothing to show for the \$2,500 we had spent on rent in three years, we decided to have our own home.

A local lumber dealer hearing we were considering a home of our own, offered plans and suggestions, and from the hundreds of home designs he had, we selected the size and kind we liked. At first we didn't think we had enough money to build, but this was provided by a finance company the lumber dealer recommended, and we pay it back like rent.

It was wonderful to see our own home being built, just the way we wanted it. Thanks to the practical help and advice of the lumber dealer, we were sure of the right materials and sound construction all through.

Determine this year to have your own home. Your lumber dealer has hundreds of architecturally designed plans for you to select from—he can tell you costs—is at hand to advise and assist during building—in short, he offers you a complete building service. Call on him—ask him too, for copy of free booklet "Plans for the Home Builder."

ALBERTA

In Ancient Spain and Gaul

Right up from the ancient Egyptians who practiced the art of brewing earlier than 450 B.C., the Greeks and Germans used beer as a beverage and understood the principles of malting. Pung tells us of the use of beer in Spain under the name of "celta," "ceria" and "cerevida," and says—
"The natives who inhabit the west of Europe have a liquor made from corn and water. They brew it so well that it will keep good for a long time."

Rink Financing Discussion

(Continued from Page One)

was made at this meeting, it was deemed advisable to allow time for various organizations among the miners to discuss the matter. Mayor Burns stated he is quite willing to address meetings in the Ukrainian and Polish halls to place before them more clearly the proposal, so that if action is later decided on, the benefit of the summer season may be taken advantage of.

It is understood that quite a number of the larger shareholders are willing to make their stock over to a community committee as a straight gift, in order to give help to the proposal for financing and operating the rink.

Local News

Mr. Ashbridge, of Corbin Coals Ltd. offices, formerly with the International at Coleman, leaves this week to join the office staff of Saunders Creek Coal Co. at Mercoal. His place at Corbin will be taken by Mr. Thompson, at present with International Coal & Coke Co. Ltd. This is the third man in succession in less than three years from International Coal Co. who has gone to Corbin Coals offices.

During their visit here on Tuesday, the boys of the Westminster Glee Singers were taken for a morning walk in charge of Mr. Wall, who has accompanied the boys from Toronto, and they were very much impressed with the fine view of the snow-covered mountains. Mr. Wall stated he had viewed the Swiss Alps, but considered the scenery of the eastern slope of the Rockies quite equal to the scenery there. He took a number of photos with the intention of piecing them together as a panoramic view of the peaks in this vicinity. Several of the men also enjoyed the brisk morning air by taking walks in the forenoon, and greatly enjoyed the first fine morning experienced for several days. They left here on Wednesday morning for Fernie, and expressed themselves as well pleased with their short stay in Coleman.

High Time for Action

Conditions at the New York Cafe "ain't what they ought to be," judging from a report at the town council meeting last evening, and denotes the need of a much closer checking up and much more frequently than is the rule. Dirty kitchen, filthy bedrooms and Chinamen sleeping in the cellar were some of the things noted by a health department inspector, while two girls employed as help were sleeping on the premises, and immediate instructions were given to dismiss them, as it was not considered a fit place for them to remain in. The place is closed till given a clean bill of health.

Telling Off the Fourflusher

Bill Nye hits the nail a hard welt on the head when he says: "A man may use a wart on the back of his neck for a collar button, ride on the back coach of a railway train to save the interest on his money till the conductor gets around; stop his watch at night to save wear and tear; leave his 'it' without a dot or cross to save ink; pasture his mother's grave to save corn; but a man of this sort is a gentleman and a prince compared to the man who will take a newspaper for many years, but when asked to pay for it puts it into the office and has it marked 'refused.'"

A meeting of Boards of Trade of Crown Nest Pass towns will be held on Wednesday next in Pincher Creek, to arrange for the issuing of publicity literature, on the scenic and other attractions of this route through the Rocky Mountains.

Mr. and Mrs. Montague Wilson returned last week from Vancouver and will leave in a day or two for Nelson, where they will reside.

Foundation of National Culture

Two new Canadians from Roumania demonstrate the art of weaving at Regina.

Those who have in the past regarded the New Canadians from Europe as hewers of wood and drawers of water must, after the recent demonstrations at the Great West Festival at Regina, admit that these peoples have, with their native arts, decidedly enhanced the cultural wealth of the country of their adoption. J. Murray Gibson, who sponsored the festival under the auspices of the Canadian Pacific Railway, even goes so far as to say that Saskatchewan and the other prairie provinces have within their borders the foundation of a National culture finer than that of any other nation on earth. To this foundation, the first seed for which had been turned at the previous festival at Winnipeg, all the races which go to make up the peoples of the west have contributed—Islanders and Irish with their folk-songs and lore, Swedes and Slavs alike with their folk-crafts and dances. Hardly a race known to civilization, old or new, but contributed to the festival some artistry which will make for the further development of that culture which, being national, will be the means of welding to a still greater solidarity, those people who are Canada.

That the movement for the attainment of this end is a popular one was demonstrated by the fact that literally thousands were unable to obtain admission to the exhibits and concerts and that western cities are vying with one another as to the site of the next festival.

WORLD HAPPENINGS BRIEFLY TOLD

Hon. H. G. Carroll, vice-president of the Quebec Liquor Commission, received official notification that he had been named lieutenant-governor of the province of Quebec.

R. B. Graham, Crown prosecutor in the Winnipeg police court since 1913, has been appointed police magistrate in succession to Sir Hugh John Macdonald, deceased.

Pending the world-wide abolition of slavery and forced labor, victims of the two institutions should at least enjoy the advantages of the eight-hour day according to the International Labor Bureau at Geneva.

Clad in bright awnings, knickers and high boots, with pack sashes slung across their backs, Hilda Beaton and Barbara Thorning, two English girls, have set out from Toronto on the first leg of a journey to Vancouver, B.C.

Negotiating a distance equal to that around the world at the equator, 25,000 miles, a motor cycle which carried eight British drivers in relays for 23 days and 22 nights covered the entire distance, 25,190 miles, in 574 hours 8 minutes.

The Manitoba Department of Education has agreed to form a circulating library of professional books for school teachers. By paying the postage on books all teachers in the province will be able to secure this aid in their profession.

Miss Ellen Hemmison, B.S., of Mount Allison University, Sackville, N.B., won the travelling scholarship awarded annually by the Canadian Federation of University Women for 1929-30. Miss Hemmison is dean of women, and instructor in the department of French, at Mount Allison.

E. W. Beatty, president of the Canadian Pacific Railways, stated that the Duke of Gloucester, third son of the King, would open the new railway hotel being completed in Toronto, provided he could be in Toronto at that time. The Duke of Gloucester will arrive at Vancouver in June to start a tour.

New Idea in Surgery

Dr. Karl Hutter, of Vienna, reveals a method of performing a bloodless surgical operation with a needle shaped electrode, which coagulates and removes diseased tissue without the use of a knife. It has been used so far to remove warts, birthmarks, moles, and the like, but can be used for more serious operations, Hutter said.

Edmonton's School Enrollment
Edmonton's school enrollment is 14,600, which is more than double the city's entire population twenty-five years ago.

Workman's Wife: "Poor dear! 'E worked 'isself to death! Betn' 'e short-sighted 'e wasn't able to see when the foreman wasn't lookin'!"

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose of water. It is pleasant, efficient, and

Bible Three Centuries Old

Was Used To Swear In New Vice-President Of United States
A most unusual Bible was used to swear in the new Vice-President of the United States, Chas. Curtis, of Kansas. It is the property of E. M. Geis, of Salina, Kansas, and is 350 years old. The Bible has been in the Geis family at least five generations. It was printed in Cologne, Germany, in 1564, and was copyrighted by Emperor Ferdinand. It is bound in wild boar skin with wooden leather covers. The book is printed in two tones, red and black, in clear faced type, and contains many woodcut pictures. One scene shows an angel driving the devil out of Paradise. Satan is shown as a large horned dragon. On the frontispiece, which bears the German Imperial seal, are depicted a series of scenes, the first being the medieval artist's conception of the fall of man. Eve is shown handing Adam an apple. The second is of an angel driving the two out of the Garden of Eden.

FOR MOTHERS OF YOUNG CHILDREN

Mothers are quick to praise anything which brings relief and comfort to their little ones—any medicine that will make the baby well and keep him well with always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of mothers throughout the country not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little ones of any of the many minor ailments which arise out of a derangement of the stomach and bowels. Baby's Own Tablets are the ideal laxative—easy to take but thorough in action. They banish constipation and indigestion; break up colds and simple fevers; expel worms and make the bedtime period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Compulsory Insurance
Privately owned automobiles will be exempt from compulsory insurance for one year at least in the province of Alberta according to a redraft of the Vehicles and Highway Traffic Act recently distributed to members of the Legislature. Taxicabs and liveries cars of all descriptions will be compelled to carry a specific amount of insurance.

Heart Palpitated Nerves Bothered Her Sleep Was Broken

Mrs. Fred A. Pugsley, East Southampton, N.S., writes:—"I was bothered very much with my nerves and palpitation of the heart, and my sleep was broken at night."

I decided to try

**MILBURN'S
HEART
AND
NERVE PILLS**

and after I had taken six boxes I found that they had done me so much good I will gladly recommend them to all those who are troubled with sleeplessness caused by their heart and nerves."

Price 50c. per box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Very slow plumb: "Oh, I remember your little boy, mum. 'E were in the infants' class when I went to do a job at the school some time ago."

Exasperated Lady: "Indeed, And what class was he in when you'd finished?"

More than 844,000 of England's citizens received poor relief in September of 1928.

COULD NOT DO MUCH WORK

Eczema on Face, Neck and Hands. Cuticura Heals.

"Eczema broke out in pimples all over my face, neck, arms and hands. I had to keep my sleeves rolled up so they would not irritate the breaking out on my arms. I was ashamed to go around on account of the eruptions and the irritation was terrible. I could not do much work, and the irritation kept me awake at night."

"I sent for a free sample of Cuticura Soap and Ointment and it gave relief. I purchased more and in about two weeks I was completely healed."

(Signed) Percival S. Foster, R. R. 6, Lindsay, Ont., Aug. 27, 1928.

Mild Weather Thaws Igloos

Eskimos Are Made Homeless By Action Of the Sun

It might be expected that winter would be winter at Tavane Bay. For Tavane Bay is 250 miles north of Fort Churchill, where the Hudson Bay Railway, through Manitoba's rich northern mineral fields, will end. But the North has been much milder. Even the Eskimos will tell you that. As usual, this past winter, the Eskimos of Tavane Bay built their igloos, their little round houses of snow and ice. As usual they were buried now and again by blizzards. But quite out of the usual was the thaw which struck them just after Christmas. The temperature soared to 21 degrees above zero. The walls of the igloos collapsed, and dozens of families were made homeless. Yet the Eskimos were cheerful. Their attitude was: "Who said our country was frozen up?" And building materials were cheap. As soon as the weather was normal again, they set to work and rebuilt.

Empire Marketing Board

Spending Money To Create An Interest In Canadian Farm Products

A bulletin from the Saskatchewan Department of Agriculture draws attention to the fact that Canada is spending money liberally to create an interest in Canadian farm products in the British Isles, and that the Empire Marketing Board, in its turn, is educating the people of the British Isles to purchase Canadian farm products. It points out that the British Empire holds unexcelled opportunities to develop markets within her own borders, and urges the farmers of the West to take advantage of the opportunities thus created to establish a market which will be permanent in character and ultimately more profitable.

HEZEKIAH LEADS HIS PEOPLE BACK TO GOD

Golden Text: "Jehovah your God is gracious and merciful." 2 Chronicles 30.9
Lesson: 2 Chronicles 30.1-27.
Devotional Reading: Psalm 145.8-17.

Explanations and Comments

Ritual Was Made For Man and Not Man For Ritual. Verses 1-4. Nisan, the first month of the Jewish year, corresponding to our month of April, was the regular time for keeping the Passover. In the reign of Hezekiah, however, the Passover could not be kept at that time, because a sufficient number of the priests had not been sanctified themselves (had not undergone certain washings, abstinences and forms), nor had the people assembled at Jerusalem, owing to the fact that the temple was not cleansed until the sixteenth day of Nisan, and the fourteenth day was the time for beginning the Passover. Accordingly, the King with his princes, and all the assembly in Jerusalem, had taken counsel together and had agreed to keep the Passover in the second month. The law (Numbers 9.10, 11) allowed those who for good reasons were prevented from observing the Passover at the regular time to celebrate it in the second month, and this decision seemed right to the King and the whole assembly.

Dr. Charles Reynolds Brown contrasts Hezekiah's broad-minded action with the narrow scruples of those chief priests and Pharisees who were so prone to putting Christ to death upon the cross at another Passover, and who would not venture into Pilate's judgment hall lest their holy feet should suffer defilement and make them unfit to share in the sacred feast. "No one is entitled to speak with greater authority on the limitations of ritual than a strong advocate of the sanctity of ritual like the Chronicler; and we may well note, as one of the most conspicuous marks of his inspiration, the sympathetic record of Hezekiah's Passover. It says much for the healthy tone of the temple community in his day that he does not attempt to reconcile the practice of Hezekiah with the law of Moses by any harmonistic quibbles."—W. H. Bennett. "Everything regarding form is elastic in the interests of the soul."—W. L. Watkinson.

Escaloped Macaroni With Cheese

1 1/2 cupsful Borden's St. Charles Milk.
3 cupsful cooked, drained macaroni cut in two-inch lengths.
1 1/2 cupsful grated American cheese.
1 1/2 tablespoonfuls flour.
1 1/2 tablespoonfuls butter or butter substitute.
1/2 teaspoonful salt, scant.
1/4 teaspoonful pepper.
Few grains paprika.

Make a white sauce of the flour, butter, seasonings and the milk diluted. Stir in the macaroni. Thoroughly oil a rather shallow baking dish, put in a layer of the macaroni, then one of the cheese, continuing in this way until all is used and making the last layer one of cheese. Bake in a moderate oven until browned, about thirty-five minutes.

Princess Mary has been elected president of the Yorkshire Beekeepers' Association, started by the largest society of the kind in the world.

Young women in Japan are rapidly taking the place of men as elevator operators, as well as in many other positions connected with business and industrial advancement.

There may be splinters in the ladder of success, but you don't notice them unless you're sliding down.

The exact measure of time covered by a day is 24 hours, 56 minutes and 8 seconds.

Predicts Next War Will Be Sudden

English Professor Says Britain Could Not Wait To Consult Dominions

Great Britain will either lose the next war or lose the Dominions, Brigadier-General J. H. Morgan, K.C., professor of constitutional law at the University of London, said in a lecture at the university.

The next war, he said, might come like a thief in the night and might be fought and won in the course of three weeks. There probably would be no ultimatum to warn of the conflict. No British government, he continued, would be likely to dare to define what was a flagrant violation of right necessitating immediate action without consulting the Dominions.

While the jurists were trying to decide whether there had been a violation of rights and while the parliaments of the Dominions were being summoned, the war would be fought and won, the lecturer declared. The result, he said, would be that if Great Britain waited to consult the Dominions, she would lose the war, and if she did not consult them, she would lose the Dominions. Brigadier-General Morgan has had a distinguished military as well as a brilliant academic career.

Alberta Wheat Pool Elevators

Fifty-six elevators will be built at as many different points by the Alberta Wheat Pool this year. This will bring its total up to 374 elevators.

Calgary's Aero Club

Calgary's Aero Club now has 814 members, of which 145 are taking instruction.

CHAPTER XVII.—Continued

Donald turned to Walwright. "Are you going to let her run? Is it safe for her to enter a race with all these men?"

"I couldn't stop her now, and besides," he added with a touch of pride, "she can hold her own with any of them."

The old trapper made his way to Donald's side. His leathery old face, with its multitudinous wrinkles, wore a perturbed expression. "That feller Lafonte is cuttin'. He's full of dirty tricks; 'tain't safe for Connie to ride."

Donald turned anxiously to Walwright.

Connie's father shook his head. "I am afraid it is too late now." Then in a lower voice he added: "You must know the reason for her entering this race."

Donald looked puzzled for a instant. Suddenly it dawned on him. "The purse?"

Walwright nodded. "It would break her heart if I forbade her to ride, now that she has gone this far. She must have decided suddenly, as she never mentioned it to me."

The Rennie Company had put up a purse of two hundred and fifty dollars. There was to be a collection taken after the race to add to this purse.

The horses trotted down the course. Connie's was rearing and prancing, and it was with difficulty that she managed to get him to join the others. She leaned forward to whisper words of quieting in this twitching car. Down the course they came. They were in nice alignment as they passed the judges' stand.

"Go!"

Connie on her spotted cayuse showed a bright splash of colour in the midst of her darker competitors.

Lafonte's dark face lighted with a savage gleam as he swung his horse to the inside or up a

Running neck and neck with him was his hated rival, Paul John, leaning low on his horse's neck and shouting unintelligibly in Chinook. Connie was with the stragglers five lengths in the rear. This was new to Pegasus, and he was bewildered by the crowding horses about him. As they turned the corner of the course, Lafonte's horse stumbled, and before he righted Paul John had slipped into the lead. Cursing-wildly, Lafonte settled himself in the saddle, his horse's head at the flank of his rival.

Hundreds of times Pegasus had travelled this field with Connie clinging to his back, slowing up for shrubs and trees and making sudden

bursts of speed in the open. That had been vastly different to being surrounded by running horses and listening to the wild cries of their riders and the roaring of the excited crowd. At the moment Lafonte loomed the point of vantage to his rival, Connie leaned forward and emitted a peculiar clucking sound at the same time striking her moccasined feet into the horse's sides. Pegasus's ears twitched back at the sound of the voice he loved. "Now I know what you want," he seemed to say, as his beautiful neck stretched out and his hoofs spurned the ground. His graceful body lowered until it appeared to the spectators as though he were just skimming the earth. He moved with a springy stride, the muscles of his sinewy frame working with a sliding movement beneath the glossy skin. Gradually he drew away from the horses travelling with him. Foot by foot he crept upon the leaders.

The party in the judges' stand came to their feet to shout approval. The girls were cheering wildly for Connie as she crept nearer the front.

Donald was leaning forward with flushed face, his eyes glued to the spotted cayuse, a deep admiration in his heart for the intrepid little rider.

Little Andy jumped on the rail. "Strike me pink!" he yelled, "look at that 'oss run!" His eyes were bright with excitement. "A hundred dollars on the spotted 'oss!" he shouted hysterically.

"I'll take you," said a voice.

"Ere you are, mate; let's make 'er two 'undred, I'm for me 'ome girl. She saved me blinkin' life. God bless 'er!"

As they neared one of the corduroy bridges Connie was neck and neck with Lafonte. The latter glanced up as Pegasus came opposite. The roar of the crowd came dimly to his ears, and he saw the flash of air and the rumble of hoofs as they struck the half. An evil look crossed the cul-breed's face. He swung his horse sharply to the right. Connie's horse floundered. Struggling to right himself, he fell off the bridge and landed with a dull thud on the soft ground below. The forward motion of the cayuse had stopped so suddenly that Connie was thrown like a projectile to a clump of bushes fifteen feet distant.

For an instant the big crowd was paralyzed. Above them went up a great groan of horror. The old trapper came to his feet, his eyes flaming, a hectic flush on his cheeks. Like a flash his hand flew to his six-shooter, and the long barrelled Colt was trained on Lafonte. As he pulled the trigger Douglas struck his arm and the bullet sped harmlessly over the horseman's head.

"My God!"

The words whistled through the set teeth of big Jack Gillis. "Let me get at him!" he cried hoarsely, as, pale of face, he struggled through the crowd. He would have thrown himself in front of the oncoming rider if strong hands had not clutch- ed and held him. Connie's father fel

back a step as if struck a sudden blow, his eyes wide and staring. Andy's head fell forward, and he groaned aloud. Janet covered her face with her hands and sat down wearily.

Donald leaped from the judges' stand, his face pale as death. A vision of Connie's broken body came before his eyes. "Oh, God!" he cried aloud in a voice vibrant with pain. He covered his eyes as though in dread of looking at the spot where she had fallen.

A shout came from the crowd—then a cheer that seemed to rock the hills. "Look! look!" they shouted.

Donald's heart was beating tumultuously. Could he believe his eyes? Connie was standing upright. She appeared to sway slightly; then, like a flash, she was at her horse's head. Trembling and smothering, Pegasus came to his feet. With a bound she was on his back and seized the reins. Pegasus reared like a stag and was down the course at the tail end of the race.

As Connie passed the judges' stand she was well up with the tail-riders and gaining steadily. Her face was pale and tense. A smear of red showed on her arm, and a little stream of blood trickled down her forehead from the wound invisible in the thickness of her hair.

The crowd became suddenly quiet as Connie thundered past—a silent tribute to her glorious pluck. As she crept toward her original position they roared their applause. Pegasus was showing an endurance and speed that had never been equalled in all of that district. As they turned to come down the home stretch Connie was a good fifty yards behind the leaders. Lafonte's cayuse was again in the lead by a few feet.

The shock and strain were beginning to tell on Connie. She leaned forward and in a broken, trembling voice she cried: "Oh, Peggy! Win, Peggy! Please! Please! I don't want to lose! I've got to win! Go! Go!" She was sobbing hysterically now, and her small hands were patting the horse's neck.

Pegasus had never heard that tone of supplication in the sweet voice of his mistress before. Nobly he responded to the call. She felt his lower under her as he set himself to the herculean task of overcoming his rival's enormous lead.

Lafonte was using the whip. Paul John, hanging so persistently to his flank, angered him. They thundered across the corduroy, and at the sound of Pegasus's hoofs on the corduroy poles Lafonte turned to glance behind. A look of astonishment crossed his face as he saw the golden-haired rider so close.

With a curse struck his horse a brutal blow that caused the animal to lose its stride momentarily and fall back in line with Paul John.

Slowly, but surely, Connie's spotted cayuse was closing the gap between himself and the two leaders, sweeping along at a terrific pace, his body and limbs moving with the rhythmic grace of a thoroughbred. Connie was leaning so low that the heavy white mane of her horse was brushing her face. Her hair was streaming in the wind like fine gold. The party in the judges' stand rushed to the railing, leaning anxiously forward to get a glimpse of the running horses as they turned the corner, and cheered lustily as the three riders thundered over the small bridge and came toward the judges' line. Connie was at Lafonte's flank now.

Pegasus's remarkable speed fanned the spectators' excitement to a fever heat. Andy had done so much shouting that his voice was reduced to a whisper. Standing on the top rail, his arms waving, he was shouting huskily. "Come on, Connie! Come on, Connie!"

Donald's dark eyes were glowing as he watched the slender figure clinging to the flying horse's back. "What a pity if she loses," he said under his breath. Leaping to the rail, he joined in the shouts of encouragement to the straining Pegasus.

With one hundred yards to go, Connie uttered one last appeal to her flying steed. Above the drumming hoofs the spectators heard her voice ring in passionate entreaty. "Now, Peggy! Now! Go! Go!"

With nostrils distended, his breath coming in choking gasps, his eyes bulging, and the voice of his adored mistress ringing in his ears, the great animal with a burst of speed that made the onlookers marvel, ranged himself alongside his labouring rivals.

Ten yards to the finish—five yards—they were neck and neck. Then, summing his last ounce of strength, Pegasus leaped forward as though he would annihilate time and distance. With eyes nearly blinded with dirt tears and the roaring air,

Over 21 Million Jars Used Yearly

Connie saw Pegasus hurt himself past the winning post—a winner by half a length!

The ear-splitting roar that went up from the race-mad crowd must have caused the marmosets on the slides near the distant glaciers to seek their holes in terror. A flock of mallard ducks, which had floated peacefully near the centre of the placid lake throughout the day's commotion, rose with frightened cries to seek a more secluded spot in which to finish their afternoon's siesta.

The crowd had seemingly gone mad. The atmosphere pulsated with a wild tumult of sound. Hats were thrown in air and throats were strained with shouting.

Donald found himself with his arms about Andy, dancing and cheering in a frenzy of joy.

(To Be Continued.)

Airplane Perfection

Almost Complete Extinction of Mechanical Error in Construction

The human factor is now of paramount importance in aviation in all its branches in Canada, according to air officials of the government who point to the almost complete extinction of mechanical error in the construction of aircraft in the Dominion during the past year.

In the earlier days of aviation in Canada, frequent accidents were attributable to engine failure, faulty construction and defective parts. Last year only one airplane accident could be blamed in anyway on a defect in either machine or engine.

"It is now time for our pilots to devote themselves most earnestly to perfecting their flying," an official said. "If the personnel operating aircraft do their part as the air engineers have already done theirs, we will rarely hear of aircraft accidents."

Hardly Likely

A young man was being questioned by a life insurance office about his family's health. He was asked: "Of what did your grandfather die?"

The applicant hesitated a few moments, and then stammered out: "I'm not sure, but I think he died in infancy."

Minard's Liniment for the Grippe and Flu.

"Jack wanted to know if I believed in ointments."

"That was rather a leading question. What did you say?"

"I told him I wouldn't even let my imagination run away with me!"

More than 90,000,000 incandescent lamps were made in Germany in the past 12 months.

Tribe Of American Indians In Siberia

Soviet Officials Hope To Save Them From Extinction

Efforts are being made by the authorities to save from extinction a nomadic tribe of "American Indians" in Siberia which has already dwindled to 403 persons.

The tribe, known as Karagas, was discovered some years ago in the Turan district of Siberia. In appearance, language, and customs they resemble so closely the Red Indians of North America that leading Russian anthropologists were convinced of their American origin.

A recent investigator reports that the tribe has such a high death rate that it has only a few more generations of life. The government has therefore set aside a large tract where no other tribes will be permitted to hunt. It is hoped here that these exclusive "happy hunting grounds" will increase the material prosperity and in consequence the longevity of the Karagas. A hospital has also been established for their use.

Perhaps the most extraordinary single fact reported about these "atrayed" Indians is that crime is entirely unknown among them. It is said that they have never heard of murder or theft.

Little Helps For This Week

"So then every one of us shall give account of himself to God."—Rom. xiv. 12.

God bends from out the deep, and says:

"I gave thee the great gift of life: What thou not called in many ways? Are not my heaven and earth at strife?"

I gave thee of my seed to sow; Bringest thou me thy hundred-fold?"

Can I look up with face aglow And answer, "Father, here is gold?"

—James Russell Lowell.

We are not our own, but His; and we are to live according to His commandment. Whatever we bury out of sight we must account for.—N. L. Frothingham.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites especially when it can be done without difficulty.

The new underground railway station at Piccadilly Circus, London, was officially opened on December 10, 1928.

Millions For Roads

British Columbia Has a Very Ambitious Programme For This Year

This year's program of road construction in the province of British Columbia calls for an expenditure of \$7,100,000. A further sum of \$2,500,000 is to be spent for maintenance of highways and roads, and \$1,000,000 has been voted by the provincial government for the construction, reconstruction and permanent improvement of trails and bridges required as access to the more important mineral areas within the province.

FLU Germs Breed In the Throat.

Flu: Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight deadly "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville. Half a teaspoonful of Nerville in water makes a most efficient gargle. The germ-killing properties of Nerville quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerville. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nerville and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light last strong windows for cattle sheds, dairy stables, poultry houses, breeder and all buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness weighs about 125 to 126 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

"The Leading Store of the Pass"

Personal and Local

Ethel Wilson of Calgary Normal has been spending the past two weeks at her home here.

Mr. O. E. S. Whiteside returned on Friday from coast cities, and Mrs. Whiteside is remaining for a while at Vancouver and Victoria, B.C.

The choir of St. Alban's brightened the service on Sunday evening by the singing of Easter anthems, which were appreciated by the congregation.

Alex Gillis, of McGillivray mine, was injured on Monday by a rock fall, and was admitted to hospital with the lower part of one leg crushed.

Edna Fairhurst returned to Calgary Normal school on Sunday night, after spending two weeks teaching, as part of her Normal course at a school near Cowley.

Miss Margaret Halliwell arrived on Wednesday morning from Medicine Hat general hospital, after completing her first year of training, to spend three weeks' holidays with her parents.

Prizes at the I.O.O.F. whist drive and dance last Saturday night were won by Mrs. J. Rogers Jr., Mrs. Russell Vincent; gents, Neil McKinnon, Mrs. J. Yates (playing as gent). Next Saturday night the music will be furnished by Bellevue three-piece orchestra.

Mrs. Asbridge of Corbin won the silver medal for soprano singing last week at Blairmore festival, the second place and bronze medal in contralto, and in the open competition tied with Mrs. Jones of Macleod. Having to try a second time, Mrs. Jones was awarded the decision by a margin of one point.

Mrs. S. S. Savage of Calgary, W.G. M. of the O.E.S., is making an official visit at Champion today and will return on Friday morning to be the guest of Mrs. Murray Parker over the week-end before leaving with Mr. Savage for a seven weeks' trip to the West Indies and Bermuda.—Lethbridge Herald.

Harry Gardner, who for the past two or three summer seasons has worked for the International Co., taking up studies for mine surveying and engineering in Alberta University during the winter months, returned on Monday for the season. Harry is anxious to see the baseball team re-organized, on which he has played.

Tea with the boy sopranos of the Westminster Glee Singers! Does it not sound interesting? Justly so too. At four-thirty Sunday afternoon five rollicking merry faced English lads in their Eton suits and pet caps arrived smilingly, in spite of the cold, snappy unspringlike day. With a decided charm and manliness they greeted their hostess, Mrs. F. MacKenzie and her friends and then, in boyish fashion, chattered, read, examined a gun with decided interest, played jazzy records on the Victrola and—drank tea. Real boys are they in truth, fun loving with mischief twinking at the corners of their up-turned mouths, interested in golf and other out-door sports including snow-balling, in which they joyously indulged on their departure from their hostess' residence. Jolly fine little lads are they! Gentlemen and winning smiles.—Lethbridge Herald.
